

Rackspace Elastic Engineering

On-demand access to a team of highly skilled experts that work alongside your team to collaboratively drive your cloud outcomes while continuously evolving your environment.

It's no longer enough to just "be in the cloud." Today businesses are under pressure to use cloud technologies to solve strategic problems, build new revenue streams, and decrease costs. With the pace of innovation accelerating like never before, they need to transform how they operate in the cloud — to evolve to cloud native. As organizations pursue this evolution, they need more than just support. They need help understanding how to scale their IT organization in an agile world, how to transform their environments, how to streamline their operating models. As IT organizations break down the traditional build and operate barriers and open up new possibilities to accelerate innovation — they need more than the traditional MSP models constrained to fit inside the boundaries of the past.

A modern, highly collaborative support model built for the new world

Rackspace Elastic Engineering provides your business access to a pod of cloud engineers who work as an extension of your team to shape your outcomes as you evolve to cloud native. No tickets, no SLAs to check — just work directly with your pod of multi-disciplinary and highly skilled cloud experts as you would your own team. You'll always work with the same pod and resources, accessed in flexible and easy to manage hours-based tiers each month. Work collaboratively to set sprint-based projects and long-term goals that mature your cloud posture. Elastic Engineering supports a broad range of cloud services including building, migrating, optimizing and managing your cloud environments across AWS, GCP and Azure.

Elastic Engineering Pod

An expert team of multi-disciplinary cloud experts supporting a broad range of outcomes.

✓ **“Do with” approach:** Our Elastic Engineering Pod works in an agile, sprint based model right alongside your team.

✓ **Consistent team:** No matter which tier of hours you use each month, you'll always work with the same pod that knows you, your environment and your business.

About Rackspace Technology

Rackspace Technology® is your trusted partner across cloud, applications, security, data and infrastructure.

- 2,600+ certified technical experts
- Hosting provider for more than half of the Fortune 100
- 20+ years of hosting experience
- Customers in 120+ countries

Fanatical Experience®

Experts on your side, doing what it takes to get the job done right. From first consultation to daily operations, Rackspace Technology combines the power of always-on service with best-in-class tools and automation to deliver technology when and how you need it.

- ✓ **Flexible, tiered pricing:** Purchase ‘fractional access’ to your pod via straightforward hours-based tiers and scale up and down monthly should your business needs change.
- ✓ **Multi-faceted skill sets:** The Elastic Engineering Pod consists of an engagement manager, architects and engineers working together as one unit.
- ✓ **Ongoing innovation:** Regular assessments using our Cloud Maturity Model will continue to help evolve your cloud.
- ✓ **Accelerators:** Rackspace Technology creates platform tools and frameworks that can be used across all teams, so every customer benefits from the collective knowledge of all our pods.
- ✓ **Dedicated pods:** Want a more custom Pod? The Dedicated Pod model allows you to build a highly customized Pod of unique experts that can work in your systems, frameworks and much more.

Take the Next Step

Let’s talk about how Rackspace Technology expertise helps you achieve your goals.
