

Rackspace Technology Financial Services Solutions for Banking

Meet demanding regulatory and security requirements, and improve customer experiences with multicloud solutions for banking.

Banking organizations need a trusted technology partner to guide them through the intricacies of cloud migration, help them deploy to the right cloud at the right time, and provide the white glove support needed to outcompete disruptors and meet increased consumer demands. Yet, they often struggle with outdated and difficult to support systems.

To solve these challenges, many banking organizations are managing their cloud solutions with Rackspace Technology. They are gaining a partner who understands how to create and maintain a secure and compliant environment.

Experts Dedicated to Your Success

Secure multicloud and hybrid managed solutions from Rackspace Technology help banking organizations reach their cloud-based business goals — including increase wallet share, evolve the omni-channel customer experience, leverage big data for insights, reduce costs and access expertise, while maintaining stringent compliance and security requirements. Rackspace Technology solutions provide compliant IT-as-a-service (IaaS) on the latest technologies and across applications, data, security and infrastructure, all tailored to the needs of the banking industry.

Key Features

Rackspace Technology offers a range of fully managed, third-party public cloud services designed specifically to help banking organizations stay secure and compliant, including these robust key features:

Security, Governance, Risk Management and Compliance: PCI, ISO, SOC and FISMA compliant solutions, as well as disaster recovery and business continuity solutions, address different financial regulations in multiple regions.

Advisory Services and Migration: Full assessments of your IT architectural landscape, including deployment planning, risk assessment, migration planning, execution and legacy decommissioning.

Management and Optimization: Workload assessments to help prioritize and plan cloud migration, including architectural and cloud readiness and software-defined hybrid clouds.

Big Data: The big data experts at Rackspace Technology can guide you through the entire big data transformation lifecycle — including planning, design, development, support and operation of the platform and IaaS.

Colocation and On-Premises Management: Secure your hardware in Rackspace Technology world-class data centers or leverage its expertise with on-premise environments.

About Rackspace Technology™

Rackspace Technology is your trusted partner across cloud, applications, security, data and infrastructure.

- A leader in the 2020 Gartner Magic Quadrant for Public Cloud Infrastructure Managed Service Providers, Worldwide
- 2,500+ cloud-certified professionals
- Hosting provider for more than half of the Fortune 100
- 20 years of hosting experience
- Customers in 120 countries
- PCI, SOC, ISO and FISMA compliance
- AWS Financial Services Competency Partner

“One of the key reasons that we went with Rackspace in the first place was we were looking for something that we could scale seamlessly with both the bank and the service culture that we could align with.”

David Young :: CTO, Metro Bank
